*Nina Štajner*

Arhitektka Nina Štajner je študirala na Fakulteti za arhitekturo Univerze v Ljubljani ter na Tehnični univerzi v Pragi. Je tudi dobitnica nagrade za perspektivni interior leta 2012 v okviru Meseca Oblikovanja. Zadnja leta se posveča predvsem delu na področju renovacij nepremičnin in notranje opreme, hkrati pa ureja tudi lifestyle blog Kitchy World. Njeni projekti so bili objavljeni v številnih domačih in tujih medijih.

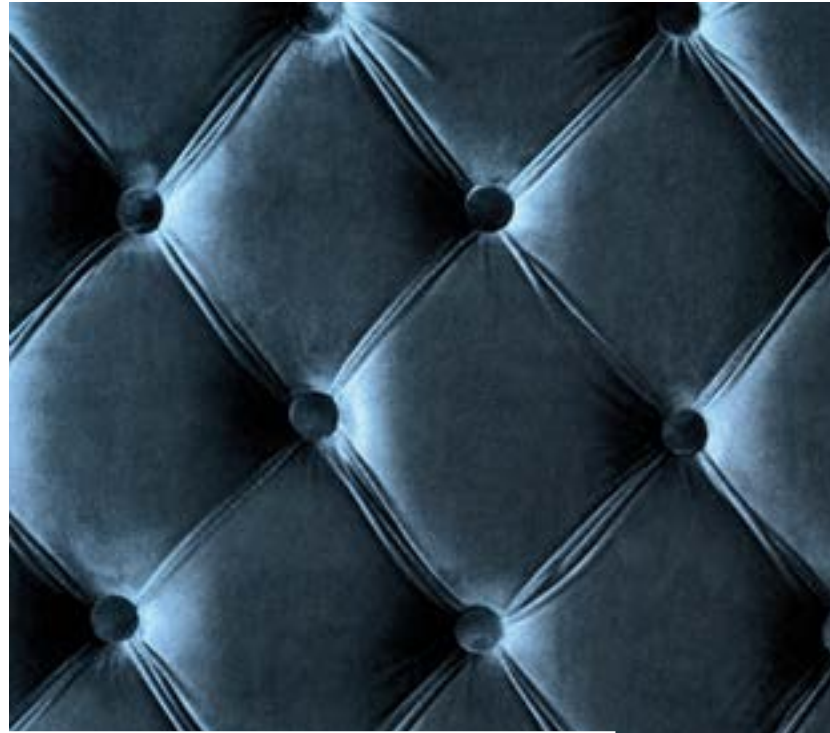

Počlašena sem, da je čast izbora barve leta tokrat pripadla meni, med procesom izbora pa sta se pri listanju barvne karte moje oko in srce ustavljala pri barvi Freedom 125. Navdušila me je z globoko barvno noto in nepričakovanim sivkastim podtonom, ki poudari melanholično dramatičnost odtenka. Spominja me na modrino razburkanega oceana, nevihtno nebo ali košaro svežih borovnic. Bogat sivkasto moder ton pooseblja svobodo, neskončnost in svežino! Vabi me k razmisleku o trajnostnem življenjskem slogu ter prihodnosti našega planeta. Modrina name deluje spoščujoče in služi kot neskončen vir inspiracije za ustvarjanje ambientov.

Naraven, pomirjujoč moder odtenek je na področju oblikovanja prostora vedno aktualen in se ga je praktično nemogoče naveličati. Po mojih izkušnjah se odlično obnese tako v vlogi osnovne barvne podlage kot dramatičnega poudarka. Lepo se poda k nežnim bež in rjavim tonom, služi pa lahko tudi kot popestritev črno bele barvne sheme. Za svoje trenutne projekte jo drzno kombiniram s komplemetarnimi toni kot sta na primer rjasto oranžna in gorčično rumena. Hladen podton modrine rada uravnotežim s toplimi lesenimi ali pletenimi teksturami, posebno lepo pa zaživi ob belem marmorju in lesku medenine ali bakra. Vabim vas, da se skupaj prepustimo modrini in ustvarjalni svobodi!

*"I am honoured that the honour of choosing the colour of the year this time belonged to me, and during the selection process, my eye and heart stopped at the colour of Freedom 125. It impressed me with a deep colour note and an unexpected greyish undertone that emphasizes the melancholy drama of the shade. It reminds me of the blue of the thunderous ocean, a stormy sky or a basket of fresh blueberries. The rich, greyish-blue tone embodies freedom, infinity and freshness! It invites me to think about a sustainable lifestyle and the future of our planet. The blueness has a relaxing effect on me and serves as an endless source of inspiration for creating ambients.*

*The natural, soothing blue shade is always relevant in the field of interior design and is virtually impossible to get tired of. In my experience, it works perfectly both in the role of a basic colour background and a dramatic emphasis. It fits nicely with gentle beige and brown tones, and can also serve to enrich the black and white colour scheme. For my current projects, I boldly combine it with complementary tones such as, for example, rusty orange and mustard yellow. I like to balance the cool undertone of the blue with warm wooden or knitted textures, and it especially comes beautifully alive with white marble and the shine of brass or copper. I invite you to indulge with me in the blueness and the creative freedom!*

*Odtenki so zgolj informativne narave.  
Colour shades are merely of informative nature.*
